#### **Disclaimer**

Aztec Resources Ltd provides a Preferred Supplier List (PSL) of the umbrella companies we engage for our contractors. However, please note that we do not endorse the benefits of operating through an umbrella company or encourage our contractors to work via any one particular provider on our PSL. It is entirely the decision of the contractor on whether you wish to work PAYE, via an umbrella company on our PSL or through your own limited company, and if you are unsure on any point Aztec Resources would encourage you to actively seek independent advice.

Aztec Resources Ltd have compiled our PSL based on umbrella companies which we believe meet the same high professional standards as our own and have passed compliance checking procedures undertaken by Aztec Resources Ltd to the best of our abilities. Aztec Resources Ltd does not accept or assume responsibility for any claims, demands, actions, proceedings, damages, losses, loss of profit, costs, expenses or any other consequences, whether direct or indirect, arising from reliance upon any services provided by either entity.
